

مقدمة

اختطت رئاسة جامعة الأنبار هدفها الاستراتيجي الرئيس المتمثل في الحصول على مراتب متقدمة في التصنيفات العالمية من خلال الارتقاء بالمستوى العلمي والبحثي لباحثي الجامعة، وهذا الهدف يتأتى تحقيقه من خلال حث باحثي الجامعة لبذل أقصى الجهود وإنجاز البحوث الرصينة لنتشر في المجالات المنضوية ضمن المستوعبات العالمية مثل Scopus, (Clarivate Analytics).

في هذا السياق ودعماً وتعويضاً وإسهاماً في تعزيز مفهوم النشر الرصين، وجهنا بإنجاز دليل باحثي الجامعة الحاصلين على معامل هيرتس (H-index) للعام 2021، لتوثيق إنجازات باحثي جامعتنا المتميزين وتحفيزهم على بذل المزيد من الجهود للوصول بالجامعة إلى مراتب متقدمة بين الجامعات محلياً وإقليمياً ودولياً.

ومن اللافت في نسخة الدليل لهذا العام الارتفاع الكبير في عدد باحثي جامعتنا الحاصلين على معامل هيرتس في سكوباس مقارنة بدليل العام 2020؛ إذ بلغ العدد (409) باحثين في هذا العام بعد أن كان (257) باحثاً في العام 2020، وكان أعلى معامل هيرتس حصل عليه أحد باحثي جامعتنا المتميزين بحثياً (29).

وقد انعكست هذه الزيادة على بيانات الجامعة في المستوعبات، فأصبح (h-index = 53) وكذلك (h5-index= 34) في سكوباس، أما في مستوعب كلاريفيت فأصبح (H-index = 48).
